The oldest building in Nürnberg is the castle. The castle stands high above the centre of the city. From the castle, visitors can look down and see the city below them. There is a moat at the foot of the castle walls. At one time, the moat was filled with water. The moat kept the people in the castle safe from their enemies.

This is a story of horror. It happened many years ago, but I still remember it clearly. I will never forget it - and my wife will never forget it either.

Now, however, there is no water. There has not been water in the moat for hundreds of years. Today, there are fruit trees and beautiful gardens in the moat. The road up to the castle is steep and long.

In Nürnberg, Amelia and I met an American. Like us, he was on holiday. His name was Elias. The three of us became good friends and we spent a lot of time together. Every day, we went round the city looking at the buildings. They were very old and very beautiful.

After we were married, my wife, Amelia, and I went to Germany. We went to stay in the old city of Nürnberg.
