**I. Read the text and identify the causes and effect of abortion.**

Each year nearly 12 million American women have an abortion to end a pregnancy.  
 The most common reasons women consider abortion are birth control failure, they don't want to be a single mother, school or career concerns, lack of maturity to raise a child, lack of money to afford the baby, and rape.  
 In the United States, 9 out of 10 abortions are performed in the first 12 weeks of pregnancy. The normal side effects after an abortion include abdominal cramps, vaginal bleeding, nausea, vomiting, sore breasts and fatigue.
